PROGRAM DESCRIPTION

Jaseng Hospital of Korean Medicine is the largest network of Korean Medicine hospitals in Korea. We offer international medical training programs to students and healthcare professionals from all around the world. Our mission is to bridge traditional practices with modern healthcare through our integrative medicine training programs.

Our offerings are diverse, catering to a wide range of learners. Whether you are a pre-med student, medical students or a healthcare professional, our programs are designed to meet your needs.

Set in the dynamic environment of a Korean Medicine Hospital, our programs are meticulously crafted. They provide a multifaceted learning experience in medicine, emphasizing both traditional and modern practices. Our goal is to equip participants with the knowledge and skills to provide optimal care to patients.

Why Rotate at Jaseng Hospital?

Broaden your a global perspective of medicine by undertaking a rotation at the largest network of Korean Medicine Hospitals in South Korea, featuring 21 branches across the country.

Jaseng Hospital stands as an accredited residency training hospital for Korean Medicine Doctors in South Korea, offering a unique opportunity for hands-on experience with experts in the field.

As the sole ACCME accredited organization in East Asia, our programs are meticulously crafted to align with ACCME competencies, ensuring a high standard of education and training for participants.

EXPECTATIONS

Please note: A significant portion of our patient population speaks Korean, and, if necessary, patient encounters may be translated to English by the physician or a dedicated translator

- Jaseng Hospital of Korean Medicine specializes in **non-surgical treatments** within the realm of Korean Medicine. Predominantly employing Integrative Medicine, our treatments involve **acupuncture, pharmacopuncture, herbal medicine, Chuna manual therapy**, and more. We integrate allopathic diagnostic methods such as **MRIs, X-rays, and pathological examinations**.
- Participants in our program will have the opportunity to observe patients undergoing various treatments, particularly in areas such as **traffic injuries, whiplash, herniated discs, dislocations, fractures, pain management, Bell’s palsy, disease prevention**, and more.
- As this program is situated in Korea, participants will gain firsthand experience and **global insights** into the **Korean hospital healthcare system and operations**. Additionally, they will visit our **affiliated universities and hospitals**.
- Participants will have the opportunity to learn and participate in research conducted at Jaseng. They will learn about **research methodology** and **evidence-based medicine**. Despite common misconceptions about Integrative Medicine lacking scientific evidence, participants in our program will be exposed to research supporting these treatments. Visits to our research laboratory and herbal dispensaries are also included in the program.

Exposure Type

Our programs are meticulously designed to provide a **well-rounded and balanced experience** for participants in all fields of medicine from a **global perspective**. Participants will have the opportunity to learn and broaden their spectrum of medicine, which will undoubtedly contribute to their future practice.

- Clinical (physician Shadowing and observership)
- Academic (lectures and hand on training session)
- Research (learn about research methodology and observe the research done at Jaseng. Participants may also have the opportunity participate in research at Jaseng)

Affiliations

Participants will have the opportunity to visit various affiliated institutions according to the schedules.

Languages Spoken

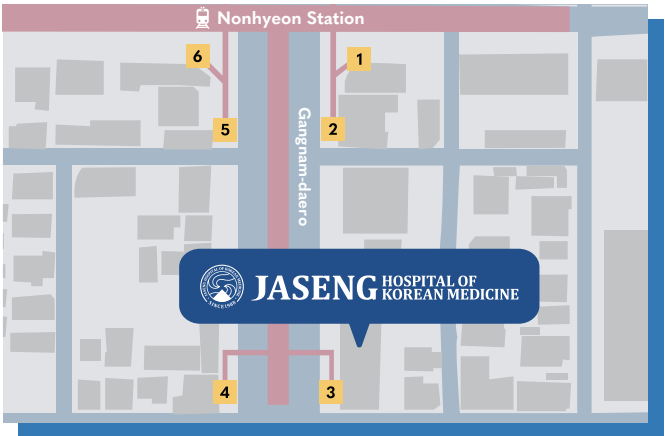

English and Korean

Required Documents for Application

- CV

TESTIMONIAL

Dillen Chung
University of Virginia

“My perspectives on medicine have broadened significantly. I’ve seen the effectiveness of using Western methods for diagnosis and Eastern medicine for treatment. Experiencing and seeing the research that Jaseng does to validate these methods was enlightening, proving their effectiveness.”

Ashley Shirriff
University of Hawaii Hogn A. Burns
School of Medicine

“The Jaseng staff were incredibly supportive and welcoming throughout the internship. They maximized our opportunities during the program. I feel fortunate to have participated in this internship. It showed me how to implement complementary and alternative medicine in my future practice, to provide individualized care for my patients.”

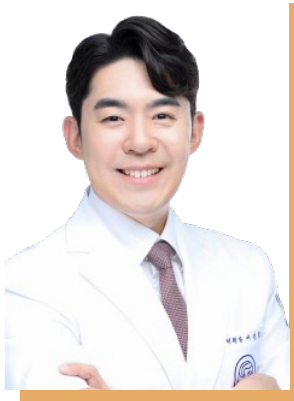

Cameron Hubbard
Michigan State University College of
Osteopathic Medicine, OMS-IV

“Jaseng provided a fantastic program, tailored to our needs. The organization was perfect, from lectures to shadowing, and hands-on training in motion style acupuncture treatment and Chuna manual therapy. The staff were exceptionally accommodating and welcoming, ensuring our comfort as foreigners.”
