Understanding R&D in Korea for Foreign Researchers

As different segments of science and technology become more strongly interrelated, international joint researches and personnel exchanges are frequently taking place. Accordingly, the Korea Institute of Human Resources Development in Science & Technology (KIRD) is offering a program, 'Understanding R&D in Korea for Foreign Researchers' to help foreign researchers settle in Korea easier and faster, and to produce greater output. We would like to invite foreign researchers in Korea to participate in this program.

> Purpose and Expected Outcomes

- To help foreign researchers better understand the environment and cultural surroundings of R&D in Korea.
- To help foreign researchers successfully settle down in Korea.
- To promote joint research with Korean institutions by helping foreign researchers understand Korean institutions.

> Topics

- Understanding R&D environment in Korea, Understanding Korean organizational culture, Adaptation to Korean custom.

> Program Outline

- **Duration & Time** : One day, November 16, 2018 (Fri.) 10am ~ 5pm
- **Venue** : Seoul Foundation of Women & Family(SFWF) 4F, Art College3
- **Subject** : Candidates and chosen researchers engaged in state-sponsored R&D projects in science and technology field.

(Recommended to those who have been in Korea no longer than 3 years.)

- **Number of participants** : Approx. 15
- **Fee** : Free of charge(lunch included)
- **Host / Organizer** : Ministry of Science and ICT / KIRD
